Lead in Water Test Results Summary: Building 1

Notes:

- **The lead in water Action Level is 15 parts per billion (ppb).**
  Any fixture testing at or above the action level of 15 ppb is immediately removed from service and cannot be returned to service until it has been remediated and passed follow-up testing.
- A "**ND**" or "non-detect" test result indicates the sample measured below the minimum detection limit of **[#] ppb**.

Legend:

- Test results **equal to or greater than the Action Level** of 15 ppb are **highlighted in red and precede a "High" value** in the "Initial Level" or "Final Level" column.
- Test results **near the Action Level** of 15 ppb (11.99 to 14.99 ppb) are **highlighted in yellow and precede a "Med" (Medium) value** in the "Initial Level" or "Final Level" column.

Fixture Location Description	Fixture ID #	Initial Test Date	Initial Test Result (ppb)	Initial Level	Final Retest Date	Final Test Result (ppb)	Final Level
